

# SAFETY DATA SHEET

TECHNICAL INDUSTRIAL SALES  
18574 South Highway 99E  
PO Box 1957  
Oregon City, OR 97045  
(503) 656-5833 / Fax (503) 656-1526

## SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

**Product Name:** Green Concentrate  
**Product Number:** TIS-4010  
**Date Prepared:** February 29, 2016  
**Responsible name:** Regulatory and Safety Compliance  
**Relevant uses of this product:** For use on Wood Products

## SECTION 2. HAZARDS IDENTIFICATION

**OSHA Regulatory Status:** This material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.201000). This SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product.

### **GHS label elements:**

**Signal Word:** No Signal Word

**Pictograms:** Not required

**Hazard statements:** No known significant effects or critical hazards.

**Appearance:** Green Liquid  
**Physical State:** Liquid  
**Odor:** None

### **Precautionary Statements:**

**General:** Read label before use. Keep out of reach of children. If medical advice is needed have product container, label or this SDS at hand.

**Prevention:** Not applicable.

**Response:** Not applicable

**Storage:** Not applicable

**Disposal :** Not applicable

**Hazards not otherwise Classified (HNOC):** None known.

## SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

**Substance/Mixture:** Mixture

## Technical Industrial Sales, (TIS-4010)

<b>Ingredient name:</b>	<b>%</b>	<b>CAS number</b>
Acetic Acid	0.081	64-19-7

Occupational exposure limits, if available are listed in Section 8.

Any concentration shown as a range is to protect confidentiality or is due to batch variation. Based on intended use and resulting curing of this product, exposure to the above substances should only occur during application that would produce spray mists or other reparable residues. There are no additional ingredients present in this product that require reporting in this section.

### SECTION 4. FIRST AID MEASURES

#### **Description of necessary first aid measures:**

- EYE CONTACT:** Immediately flush with large quantities of clean water for at least 15 minutes, lifting upper and lower eyelids occasionally. Check for and remove any contact lenses. Get medical attention if irritation persists.
- INHALATION:** Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. Repeated or prolonged skin contact with liquid may cause irritation.
- SKIN CONTACT:** Wash with mild soap and water. Seek medical advice. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
- INGESTION:** Wash out mouth with several glasses of water. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.

#### **Most important symptoms/effects, acute and delayed**

##### **Potential acute health effects:**

- Eye contact:** Causes Irritation.
- Inhalation:** No known significant effects or critical hazards
- Skin Contact:** No known significant effects or critical hazards
- Ingestion :** No known significant effects or critical hazards

##### **Over-exposure signs/symptoms:**

- Eye contact:** May cause severe irritation and redness.
- Inhalation:** No Specific data
- Skin contact:** No Specific data
- Ingestion:** No Specific data

### Section 5. Fire-fighting measures

#### Extinguishing Media

**All fires:** Use an extinguishing agent suitable for the surrounding fire.

#### **Special protective equipment for fire-fighters:**

Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with full face-piece operated in positive pressure mode.

**Technical Industrial Sales, (TIS-4010)**

**Remark** This product is non-flammable-non-combustible

**SECTION 6. ACCIDENTAL SPILL OR RELEASE PROCEDURES**

**Personal precautions, protective equipment and emergency procedures:**

**For non-emergency personnel:** No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment.

**For emergency responders:** If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in “For non-emergency personnel”.

**Environmental Precautions:** Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

**Methods and materials for containment and cleaning up:**

**Small spill:** Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

**Large spill:** Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillage into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

**SECTION 7. HANDLING AND STORAGE**

**Precautions for safe handling:**

**Protective measures:** Put on appropriate personal protective equipment (see Section 8).

**Recommended general:** Eating, drinking, smoking should be prohibited in areas where this material is handled,

**Occupational hygiene** stored and processed. Workers should wash hands and face before eating, drinking, and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

**Conditions for safe Storage, including any incompatibilities:**

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to

## Technical Industrial Sales, (TIS-4010)

prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

### SECTION 8. EXPOSURE CONTROLS/ PERSONAL PROTECTION EQUIPMENT

#### Control parameters:

#### Occupational exposure limits:

ACGIH TLV

OSHA PELs

NIOSH IDLH

None

**Engineering measures:** Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

#### Environmental Exposure Controls:

Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection Legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

#### Individual protection measures:

#### Hygiene measures

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. Approved waterless hand cleaners are effective for removing this material.

**Eye/face protection:** Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes.

#### Skin protection:

#### Hand protection:

Chemical-resistant, impervious gloves complying with an approved standard should be worn when handling chemical products if a risk assessment indicates this is necessary.

#### Body protection:

Impervious protective clothing for the body should be selected based on the task being performed and risk assessment determined

#### Hygiene measures:

Handle in accordance with good industrial hygiene and safety practices

#### Respiratory protection:

If a risk assessment indicates need of respirator, use a properly fitted appropriately designed approved respirator for the anticipated exposure protection.

**Technical Industrial Sales, (TIS-4010)**

**Other skin protection:** Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

**SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

**Physical State:** Liquid  
**Color:** Green  
**Odor:** No odor  
**Boiling Point:** >200 deg. F  
**Vapor Pressure:** Not Available  
**Vapor Density:** >1 (Air = 1)  
**Specific Gravity:** 1.008  
**Weight/gal:** 8.4 lbs/gal  
**Percent Volatiles:** Approx. 90% by vol. (as water)  
**VOC:** 0  
**HAPS:** None  
**Evaporation Rate:** Not determined for product  
**PH:** 8-9  
**Flash Point:** Non-flammable  
**Flammability:** Non-flammable  
**Solubility:** Dispersible in Water  
**Viscosity:** Set to Customer Requirements

**SECTION 10. STABILITY AND REACTIVITY**

**Reactivity:** Not available for product  
**Chemical stability:** This product is stable  
**Hazardous reactions:** Will not occur  
**Conditions to Avoid:** None Known  
**Incompatibility:** No specific data

**Hazardous Decomposition:** Under normal use, hazardous decomposition products should not be produced.

**SECTION 11. TOXICOLOGICAL INFORMATION**

**Information on toxicological effects:**

<u>Acute toxicity__</u>	<u>Product/ingredient name</u>	<u>Result</u>	<u>Species</u>	<u>Dose</u>	<u>Exposure</u>
Not Available for Product					

**Irritation/Corrosion:** Not Available  
**Sensitization:** Not Available  
**Mutagenicity:** Not Available  
**Carcinogenicity:** Not Available

**Classification:**

**Product/ingredient name:** OSHA IARC NTP

**Technical Industrial Sales, (TIS-4010)**

**Reproductive Toxicity:**

Not Available

**Teratogenicity:**

Not Available

**Specific target organ toxicity (single or repeated exposure):**

Not Available

**Aspiration Hazard:**

Not Available

**Likely routes of exposure:** Routes of entry anticipated: Dermal, Inhalation

**Potential chronic health effects:**

Not Available

**Conclusion/Summary:** Handling and/or processing of this material may generate a dust which can cause mechanical irritation of the eyes, skin, nose, and throat. Repeated inhalation of dust can produce varying degrees of respiratory irritation or lung damage.

<b>General:</b>	No known significant effects or critical hazards
<b>Carcinogenicity:</b>	No known significant effects or critical hazards
<b>Mutagenicity:</b>	No known significant effects or critical hazards
<b>Teratogenicity:</b>	No known significant effects or critical hazards
<b>Developmental effects:</b>	No known significant effects or critical hazards
<b>Teratogenicity:</b>	No known significant effects or critical hazards
<b>Fertility affects:</b>	No known significant effects or critical hazards

**Acute toxicity estimates:**

Not Available

**SECTION 12. ECOLOGICAL INFORMATION**

**Toxicity:**

Not Available

**Persistence and degradability:**

Not Available

**Other adverse effects:** No known significant effects or critical hazards

**SECTION 13. DISPOSAL CONSIDERATIONS**

**Disposal Methods:**

EPA HAZARDOUS WASTE CODE: NONE

## Technical Industrial Sales, (TIS-4010)

Generation of wastes should be avoided or minimized. Product must be disposed of properly by a licensed waste disposal contractor under Federal and State regulations for industrial wastes. Recommended disposal is incineration or Disposal in a Class D landfill of absorbed wastes pending approval. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

As delivered, this product when spilled, released or disposed of, is a non-hazardous waste as defined in RCRA regulations 40 CFR Part 261.

### SECTION 14. TRANSPORTATION INFORMATION

**DOT PROPER SHIPPING NAME:** Green Concentrate (TIS-4010)

**DOT HAZARD CLASS:** None

**DOT IDENTIFICATION NO.** None

**DOT PACKING GROUP:** None

**DOT RQ FOR PRODUCT:** NA

**DOT MARINE POLLUTANT:** NA

**TDG NAME:** Green Concentrate (TIS-4010)

**TDG CLASS:** None

**PIN NUMBER:** None

**WHMIS:** D2B

### SECTION 15. REGULATORY INFORMATION

#### **U.S. Federal regulations:**

**United States inventory:** The ingredients of this product are listed on or exempted by the United States inventory (TSCA 8b).

#### **SARA 311/32010:**

Classification Not Applicable

#### **California Prop. 65:**

None

#### **Ingredient name:**

#### Cancer

#### Reproductive

#### **WHMIS (Canada):**

Class D-2A Material causing other toxic effects

#### **Canada Inventory**

All components are listed or exempted

#### **International regulations:**

##### **International lists:**

<b>Australia inventory (AICS)</b>	Not Determined
<b>China inventory (IECSC)</b>	Not Determined
<b>Japan inventory</b>	Not Determined
<b>Korea inventory</b>	Not Determined
<b>Malaysia inventory (EHS Register)</b>	Not Determined
<b>New Zealand inventory of Chemicals (NZIoC)</b>	Not Determined
<b>Philippines inventory (PICCS)</b>	Not Determined
<b>Taiwan inventory (CSNN)</b>	Not Determined

**Technical Industrial Sales(TIS-4010)**

**European Chemical Agency:** This product does not contain any ECHS substances.

**SECTION 16. OTHER INFORMATION**

**National Fire and Protection Association (U.S.A)**

<u>HMIS</u>		<u>NFPA</u>	
Health	1		1
